BMW Classic Coupes, 1965 - 1989 James Taylor 2014-11-30 A definitive guide to BMW's high-performance classic coupes, tracking their rising success from 1965 to 1989. After the doldrums of the post-war years, BMW had felt the need for a flagship grand touring coupe. This definitive guide covers BMW's high-performance classic coupes, tracking their rising success from 1965 to 1989 and includes full specification guides, production histories and original photography. Topics covered include: BMW's hand-built coupes of the 1950s and the first volume-built models; the mainstream E9 range, with new engines and revised front-end styling; racing success for the 'Batmobile' CSLs, including six wins at the European Touring Car Championship from 1973 to 1979; engineering and development of the luxury E24 range; tuned and modified coupes, including the rare custom convertibles.
