Subject Volume Union of International Assciations 2008-08 Yearbook of International Organizations is the most comprehensive reference resource and provides current details of international non-governmental (NGO) and intergovernmental organizations (IGO). Collected, documented and disseminated by the Union of International Associations (UIA), detailed and profound information on international organizations worldwide can be found here, from the United Nations, the ASEAN and the Red Cross to sporting bodies and religious orders. Besides historical and organizational information (e.g. on aims, subject orientation and locations), details on activities, events or publications as well as the most current contact details are included.

Integrated are also biographies of the leading individuals of the organizations as well as the presentation of networks of organizations. The Union of International Associations (UIA) is a non-profit, apolitical, independent and non-governmental institution in the service for international associations, based in Brussels, Belgium. For 100 years, the UIA has focused on the nature and

evolution of the international civil society - a topic of increasing relevance.
New: UIA Bi-monthly Study Find out about current topics and the wealth of information contained in the Yearbook of International Organizations. No. 1 of UIA's new Bi-monthly Study is now available for download. This time's subject: Olympic Games and Sports.

Introduction to Neutrosophic Statistics Florentin Smarandache 2014

Neutrosophic Statistics means statistical analysis of population or sample that has indeterminate (imprecise, ambiguous, vague, incomplete, unknown) data. For example, the population or sample size might not be exactly determinate because of some individuals that partially belong to the population or sample, and partially they do not belong, or individuals whose appurtenance is completely unknown. Also, there are population or sample individuals whose data could be indeterminate. In this book, we develop the 1995 notion of neutrosophic statistics. We present various practical examples. It is possible to

define the neutrosophic statistics in many ways, because there are various types of indeterminacies, depending on the problem to solve.
