Not in the Child's Best Interest Ron Palmer 2013-05-25 You Can  
Protect Your Children in Divorce You can stop the divorce court  
from invading your privacy You can stop the illegal family studies  
You can limit the judges authority to rip your life apart You can  
stop the personal attacks on your parenting style You can stop  
the system from hurting your child You can stop the system from  
making you broke You can learn to protect those you love most  
The Divorce Industry takes BILLIONS of dollars from our children  
every single year! STOP THEM NOW! This book will give you the  
arguments, the legal framework for stopping the divorce custody  
machine dead in its tracks. This book will show you how to stop  
giving up your rights to your children. Your children need you in  
their lives. The most important thing you can do to give your child

a future is to remain a full parent in their lives. To retain equal time to show them love and to teach them through your daily example. Children do best in life when they have two fit parents active in their lives. Your right to the care, custody and control over your child is a Fundamental Liberty, just as your right to free speech is, or your right to freedom of religion is a Fundamental Liberty. Your child has the right to associate with you and to have you as a parent, not a visitor, in their life. You and your child have privacy rights in your family life that are between you and your child as individuals. They do NOT come from the marriage, and, if you are a natural parent, they do NOT come from the Government. If you let them, the State will take your rights and do with them what they please. Knowledge is Power! Know your Rights! Protect Your Children

Choosing Equality Joseph Viteritti 2012-01-01 America is now in the second generation of debate on school choice. The first was prompted by the provocative voucher proposal conceived by Milton Friedman in 1955 and brought into the mainstream by Chubb and Moe's seminal book Politics, Markets, and American Schools (Brookings, 1990). It introduced a pure market model in which schools would be publicly financed but privately operated. While opponents continue to contend that choice will lead to the demise of public education, the weakening of civil society, and the fostering of separate and unequal systems of education, Joseph P. Viteritti argues that these long-held assertions must give way to present realities. The rich and diverse experience we have had with magnet schools, controlled choice, inter-district choice, charter schools, privately funded vouchers, and public vouchers in Milwaukee and Cleveland provides a solid basis for

crafting a choice policy that enhances the educational opportunities of children whose needs are not being met by the present system of public education. Drawing on his background as a political scientist, legal scholar, and education practitioner, Viteritti starts his book with the promise articulated in the landmark Brown decision of 1954. After reviewing a variety of policy initiatives enacted to promote educational opportunity, he finds that the nation has fallen short of providing decent schooling for its most disadvantaged children, and in so doing has delayed the movement toward social and political equality. Viteritti does not contend that choice in the form of charter schools or vouchers for the poor is a solution to racial inequality, but he believes that these forms of choice can move the country in the proper direction. He insists that the nation cannot pretend to have a serious commitment to the goal of educational equality as long as choice is available only to those with the private means to afford it.
