The Gospel according to Disney Mark I. Pinsky 2004-07-14 In this follow-up to his bestselling *The Gospel According to The Simpsons: The Spiritual Life of the World's Most Animated Family*, religion journalist Mark Pinsky explores the role that the animated features of Walt Disney played on the moral and spiritual development of generations of children. Pinsky explores thirty-one of the most popular Disney films, as well as recent developments such as the 1990s boycott of Disney by the Southern Baptist Convention and the role that Michael Eisner and Jeffrey Katzenberg played in the resurgence of the company since the mid-1980s.

*Towers Falling* Jewell Parker Rhodes 2016-07-12 From award-winning author Jewell Parker Rhodes comes a powerful novel set fifteen years after the 9/11 attacks in a classroom of students who cannot remember the event but live through the aftermath of its cultural shift. When her fifth-grade teacher hints that a series of lessons about home and community will culminate with one big answer about two tall towers once visible outside their classroom window, Déja can't help but feel confused. She sets off on a journey of discovery, with new friends Ben and Sabeen by her side. But just as she gets closer to answering big questions about who she is, what America means, and how communities can grow (and heal), she uncovers new questions, too. Like, why does Pop get so angry when she brings up anything about the towers? Award-winning author Jewell Parker Rhodes tells a powerful story about young people who weren't alive to witness this defining moment in history, but begin to realize how much it colors their every day.

*Walt Disney and the Quest for Community* Steve Mannheim 2016-02-24 During the final months of his life, Walt Disney was consumed with the world-wide problems of cities. His development concept at the time of his death on December 15th, 1966 would be his team's conceptual response to the ills of the inner cities and the sprawl of the megalopolis: the Experimental Prototype Community of Tomorrow or, as it became known, EPCOT. This beautifully written, instantly engrossing volume focuses on the original concept of EPCOT, which was conceived by Disney as an experimental community of about 20,000 people on the Disney World property in central Florida. With its radial plan, 50-acre town center enclosed by a dome, themed international shopping area, greenbelt, high-density apartments, satellite communities, monorail and underground roads, the original EPCOT plan is reminiscent of post-war Stockholm and the British New Towns, as well as today's transit-oriented development theory. Unfortunately, Disney himself did not live long enough to witness the realization of his model city. However, EPCOT's evolution into projects such as the EPCOT Center and the town of Celebration displays a remarkable commitment by the Disney organization to the original EPCOT philosophy, one which continues to have relevance in the fields of planning and development.

*Twentysomething Essays* by Twentysomething Writers Matt Kellogg 2006-08-29 Selected as the winners of Random House's national contest, a stunning collection of essays ranging from comic to poignant, personal to political, by the brightest young writers you haven't heard of . . . yet. Here, for the first time, current twentysomethings come together on their own terms, in their own words, and begin to define this remarkably diverse and self-aware generation. Tackling an array of subjects—career, family, sex, religion, technology, art—they form a vibrant, unified community while simultaneously proving that there is no typical twentysomething experience. In this collection, a young father works the late-night shift at Wendy's, learning the finer points of status, teamwork, and french fries. An artist's nude model explains why she's happy to be viewed as an object. An international relief worker wrestles with his choices as he starts to resent the very people who need his help the most. A devout follower of Joan Didion explains what New York means to her. And a young army engineer spends his time in Kuwait futilely trying to grow a mustache like his dad's. With grace, wit, humor, and urgency, these writers invite us into their lives and into their heads. *Twentysomething Essays* by Twentysomething Writers is a rich, provocative read as well as a bold statement from a generation just now coming into its own, including these essays "California" by Jess Lacher "The Waltz" by Mary Beth Ellis "The Mustache Race" by Bronson Lemer "Sex and the Sickbed" by Jennifer Glaser "Tricycle" by Rachel Kempf "Prime-Time You" by John Fischer "Backlash" by Shahnaz Habib "Think Outside the Box but Stay Inside the Grid" by Emma Black "Finding the Beat" by Eli James "You Shall Go out with Joy and be Led Forth with Peace" by Kyle Minor "The Idiot's Guide to Your Palm" by Colleen Kinder "Sheer Dominance" by Christopher Poling "Live Nude Girl" by Kathleen Rooney "An Evening in April" by Radhiyah Ayobami "Cliché Rape Story" by Marisa McCarthy "Rock my Network" by Theodora Stites "Goodbye to All That" by Eula Biss "All the Right Answers" by Brendan Park "Why I Had To Leave" by Luke Mullins "In-Between Places" by Mary Kate Frank "A Red Spoon for the Nameless" by Burlee Vang "My Little Comma" by Eirena Evans "Fight Me" by Miellyn Fitzwater "The Secret Lives of My Parents" by Kate McGovern "My Roaring Twenties" by Lauren Monroe "In, From the Outside" by Katherine Dykstra "The Mysteries of Life . . . Making Sense Bob Coleman 2006 This cross-disciplinary reader gives students the opportunity to read and write about significant issues across the arts and sciences and to explore how knowledge is constructed and communicated. Thirty-eight contemporary essays are preceded by introductory chapters on writing and reading and are followed by assignment sequences that juxtapose three or more essays with a central theme. Discussion, library and Internet research, and writing activities accompany each reading. While the essays are arranged in alphabetical order, the text also offers alternative thematic and disciplinary tables of contents. The Second Edition of Making Sense presents works by well-known authors such as Annie Dillard, Gloria Anzaldua; a, bell hooks, Lawrence Lessig, Ralph Ellison, and Nancy Sommers, as well as selections by lesser-known writers from a variety of fields. New! Students will be engaged by the variety of new readings by writers such as Dorothy Allison and Marita Sturken. New images also appear throughout the text, ranging from Depression-era photos accompanying Dorothy Allison's essay to advertisements accompanying Stuart Ewen's essay on consumer style. New! Pre-reading questions—"What Do You Know?" and "What Do You Expect to Discover?"—guide students to uncover what they already know about a topic so they can move with more confidence into their reading of the text. These questions also help students anticipate key ideas and develop their own framework for understanding the readings. New! Updated post-reading questions are now arranged in the following four categories: Reading, Rereading, and Analysis; Responding through Writing: Building an Interpretation; Going Further: Learning from Other Sources; and Applying What You've Learned. New! Ten new assignment sequences invite students to read critically and to practice their revision skills. Topics include "History and Memory," with selections from bell hooks, Ralph Ellison and Julie Charlip, and "Images and Words," with selections from Arlie Hochschild, Richard Florida, and Yi-Fu Tuan. This edition offers two appendices: "Making Sense through Research" and "Writing in the Disciplines," a collection of five essays by academics and professionals on the value of effective writing in a variety of fields.

Manufacturing Desire Arthur Asa Berger 2017-07-12 The average person in America watches four hours of television per day and spends the equivalent of nine years of his or her life in front of the television set. If the attention most people devote to popular culture - listening to the news, watching soap operas, reading the comics-were added up, it would reveal that most people spend an enormous amount of time with popular culture which becomes in large measure, their culture. "Manufacturing Desire" is a study of how the mass media broadcast or spread various popular arts; further how the media and popular arts play a major role in shaping our everyday lives. The television shows we watch, the movies we see, the radio programs we listen to, and all the comic strips we read influence social behavior. They give us ideas about what is good and evil, about how to solve problems, and about how we should relate to others. If we understand this, says Berger, then the way we think about our media-influenced culture will be far different than if we see popular culture as mindless entertainment. Berger provides an analysis of the way popular culture and the mass media simultaneously reflect and affect various aspects of American culture and society. He examines commercials, television shows, comics, film, humor, and everyday life in terms of what beliefs and values are found in them, what attitudes toward ourselves, and our societies are contained in them, how they achieve their effects, and what they reflect about present-day American culture and society. This book is analysis of the impact mass media have across America, cross-culturally, and internationally. "Manufacturing Desire" will provide the general reader as well as specialists in communication and information, sociology, and psychology with a better understanding of the effects of mass media and popular culture on contemporary society.

In all, eight key admissions strategies are addressed, including: -How to identify and present a key talent -How to make your well-roundedness an asset, not a weakness -How to forge connections and use them to your advantage Each student profile also includes all their vital information, including: -Test scores and GPA -Extracurricular activities and awards -Family background and hometown

Animated 'Worlds' Suzanne Buchan 2007-02-20 What do we mean by the term "animation" when we are discussing film? Is it a technique? A style? A way of seeing or experiencing "a world" that has little relation to our own lived experience of "the world"? In *Animated Worlds*, contributors reveal the astonishing variety of "worlds" animation confronts us with. Essays range from close film analyses to phenomenological and cognitive approaches, spectatorship, performance, literary theory, and digital aesthetics. Authors include Vivian Sobchack, Richard Weihe, Thomas Lamarre, Paul Wells, and Karin Wehn.

From Virgin Land to Disney World 2001-01-01 With the publication in English in 1930 of *Civilization and its Discontents* and its thesis that instinct – and, ultimately: nature – had been and must be forever subordinated in order that civilization might thrive and endure, Freud contributed what some contemporaries saw to the central debate of his era -- a debate which had long preoccupied both official American pundits and the American populace at large. At the beginning of the new Millennium, evidence abounds that an American debate still rages over the meaning of "nature," the rightful weight of instinct, and the status of civilization. The Millennium itself has appeared in popular and official discourses as an appropriate marker of an age in which nature is close to the edge of radical extinction and has also become more and more unreliable as a paradigm for representation and debate. At the same time, the contemporary tailoring of nature to postmodern needs and expectations inevitably reveals the conceptual difficulty of any possible, simple opposition between nature and culture as if they were clearly distinguishable domains. If nature, then, can clearly be seen as a discursive concept, it may also be a timeless concept insofar that it has been shaped, created, and used at all times. Every epoch, age and era had "its own nature," with myth, history and ideology as its dominant shaping forces. From the Frontier to Cyberia, nature has been suffering the "agony of the real," resurfacing in discursive strategies and demonstrating a powerful impact on American society, culture and self-definition. The essays in this collection "speak critically of the natural" and examine the American debate in the many guises it has assumed over the last century within the context of major critical approaches, psychoanalytical concepts, and postmodern theorizing.

An Anatomy of Humor Arthur Asa Berger 2017-07-05 Humor permeates every aspect of society and has done so for thousands of years. People experience it daily through television, newspapers, literature, and contact with others. Rarely do social researchers analyze humor or try to determine what makes it such a dominating force in our lives. The types of jokes a person enjoys contribute significantly to the definition of that person as well as to the character of a given society. Arthur Asa Berger explores these and other related topics in An Anatomy of Humor. He shows how humor can range from the simple pun to complex plots in Elizabethan plays. Berger examines a number of topics ethnicity, race, gender, politics each with its own comic dimension. Laughter is beneficial to both our physical and mental health, according to Berger. He discerns a multiplicity of ironies that are intrinsic to the analysis of humor. He discovers as much complexity and ambiguity in a cartoon, such as Mickey Mouse, as he finds in an important piece of literature, such as Huckleberry Finn. An Anatomy of Humor is an intriguing and enjoyable read for people interested in humor and the impact of popular and mass culture on society. It will also be of interest to professionals in communication and psychologists concerned with the creative process.

The Disney Version Richard Schickel 2019-09-01 "The single most illuminating work on America and the movies" (The Kansas City Star): the story of how a shy boy from Chicago crashed Hollywood and created the world's first multimedia entertainment empire—one that shapes American popular culture to this day. When Walter Elias Disney moved to Hollywood in 1923, the twenty-one-year-old cartoonist seemed an unlikely businessman—and yet within less than two decades, he'd transformed his small animation studio into one of the most successful and beloved brands of the twentieth century. But behind Disney's boisterous entrepreneurial imagination and iconic characters lay regressive cultural attitudes that, as The Walt Disney Company's influence grew, began to not simply reflect the values of midcentury America but actually shape the country's character. Lauded as "one of the best studies ever done on American popular culture" (Stephen J. Whitfield, Professor of American Civilization at Brandeis University), Richard Schickel's The Disney Version explores Walt Disney's extraordinary entrepreneurial success, his fascinatingly complex character, and—decades after his death—his lasting legacy on America.

Learning from Mickey, Donald and Walt A. Bowdoin Van Riper 2014-01-10 Throughout its long and colorful history, Walt Disney Studios has produced scores of films designed to educate moviegoers as well as entertain them. These productions range from the True-Life Adventures nature documentaries and such depictions of cutting-edge technology as Man in Space and Our Friend the Atom, to wartime propaganda shorts (Education for Death), public-health films (VD Attack Plan) and coverage of exotic cultures (The Ama Girls, Blue Men of Morocco). Even Disney's dramatic recreations of historical events (Ten Who Dared, Invincible) have had their share of educational value. Each of the essays in this volume focuses on a different type of Disney "edutainment" film. Together they provide the first comprehensive look at Walt Disney's ongoing mission to inform and enlighten his worldwide audience.

The Crisis 1995-01 The Crisis, founded by W.E.B. Du Bois as the official publication of the NAACP, is a journal of civil rights, history, politics, and culture and seeks to educate and challenge its readers about issues that continue to plague African Americans and other communities of color. For nearly 100 years, The Crisis has been the magazine of opinion and thought leaders, decision makers, peacemakers and justice seekers. It has chronicled, informed, educated, entertained and, in many instances, set the economic, political and social agenda for our nation and its multi-ethnic citizens.

Movie Towns and Sitcom Suburbs Stephen Rowley 2015-10-21 Media depictions of community are enormously influential on wider popular opinion about how people would like to live. In this study, Rowley examines depictions of ideal communities in Hollywood films and television and explores the implications of attempts to build real-world counterparts to such imagined places.

Apartheid's Festival Leslie Witz 2003-10-06 Apartheid's Festival highlights the conflicts and debates that surrounded the 1952 celebration of the 300th anniversary of the landing of Jan Van Riebeeck and the founding of Cape Town, South Africa. Taking place at the height of the apartheid era, the festival was viewed by many as an opportunity for the government to promote its nationalist, separatist agenda in grand fashion. Leslie Witz's fine-grained examination of newspapers, brochures, pamphlets, and advertising materials reveals the expectations of the festival planners as well as how the festival was engineered, historical figures were reconstructed, and the ANC and other anti-apartheid organizations mounted opposition to it. While laying open the darker motives of the apartheid regime, Witz shows that the production of local history is part of a global process forged by the struggle between colonialism and resistance. Readers interested in South Africa, representations of nationalism, and the making of public history will find Apartheid's Festival to be an important study of a society in transition.

Queer Theory and Social Change Max H. Kirsch 2013-04-15 Queer Theory and Social Change argues that there is a crisis within Queer theory over whether or not its theories can actually deliver change. Max Kirsch presents a challenging alternative to the current fascination with post-modern analyses of identity, culture, and difference. It emphasizes the need for a discussion of the importance of communities and the role of globalization on queer movements.

Mickey Mouse History and Other Essays on American Memory Michael Wallace 1996 This is a book about why history matters. It shows how popularized historical images and narratives deeply influence Americans' understanding of their collective past. A leading public historian, Mike Wallace observes that we are a people who think of ourselves as having shed the past but also avid tourists who are on a "heritage binge," flocking by the thousands to Ellis Island, Colonial Williamsburg, or the Vietnam Memorial. Wallace probes into the trivialization of history that pervades American culture as well as the struggles over public memory that provoke stormy controversy. The recent imbroglio surrounding the National Air and Space Museum's proposed Enola Gay exhibit was reported as centering on why the U.S. government decided to use the A-Bomb against Japan. Wallace scrutinizes the actual plans for the exhibit and investigates the ways in which the controversy drew in historians, veterans, the media, and the general public. Whether his subject is multimillion dollar theme parks owned by powerful corporations, urban museums, or television docudramas, Mike Wallace shows how their depictions of history are shaped by assumptions about which pasts are worth saving, whose stories are worth telling, what gets left out, and who is authorized to make the decisions. Author note: Mike Wallace is Professor of History at John Jay College, City University of New York. He is the co-author, with Edwin G. Burrows, of *Gotham: A History of New York City to 1898*, winner of the 1999 Pulitzer Prize for History.

Discussing Disney Amy M. Davis 2019-12-01 Discussing Disney has grown out of a conference of the same name, is a collection of 12 papers on topics which, though diverse in scope, all relate back to one another through their connection to Disney. As the field of Disney Studies continues to grow and evolve, those working within and contributing to it come from a range of backgrounds, including History, Myth Studies, Film Studies, Gender Studies, and Musicology (to name just a few), and therefore examine the outputs of the Disney company - and the company itself - in diverse ways. Discussing Disney seeks to continue the evolution of Disney Studies as an academic field that has now evolved beyond a discourse that merely, to quote Eric Smoodin (1994), "...[sought] to complicate the notions and uses of Disney discourse that currently make their way to the general public through the popular media". Though this was an important early step in Disney Studies, as it found it necessary to justify its legitimacy within the academy, in the intervening quarter-century, Disney Studies has established itself as a field of Animation Studies (which, simultaneously, has established itself as a branch of Film and Television Studies, as well as Cultural Studies), and is now recognized widely as a valid subject of academic enquiry in its own right. Film Studies as a whole - and Disney Studies as part of that - has also evolved in such a way that it has moved forward from insisting upon an overtly political (and therefore inherently biased) stance, and has taken up a more historically-based and/or cultural studies-based, politically-neutral approach that seeks to contextualize its subject in terms of the conditions in which the company's various outputs - animated shorts and films, theme park attractions, television shows, books, music, merchandising, and the like - have been produced, as well as understanding the audience for whom these were made initially. This is not to say that the field ignores politics - far from it - but rather that it uses political history and political theory as academic basis, rather than as a position from which to debate and opine. By looking at Disney from some of its many angles - the history and the persona of its founder, a selection of its films (from the blockbuster successes to the less than successful), its approaches to animation, its branding and fandom, and the ways that it has been understood and reinterpreted within popular culture - it is hoped that Discussing Disney offers its readers (and the field of Disney Studies) a more holistic understanding of a company that is arguably one of the most important forces within culture - popular or otherwise - within (so far) the Twentieth and Twenty-First Centuries.

Twelve Readers Reading Richard Straub 1995 This work gives the reader a chance to look over the shoulders of 12 theorists, and study how they comment on student writing. It presents over 50 sets of teachers' comments on a sampling of student essays, and describes each of the readers' response styles.

Markets without Limits Jason F. Brennan 2015-08-20 May you sell your vote? May you sell your kidney? May gay men pay surrogates to bear them children? May spouses pay each other to watch the kids, do the dishes, or have sex? Should we allow the rich to genetically engineer gifted, beautiful children? Should we allow betting markets on terrorist attacks and natural disasters? Most people shudder at the thought. To put some goods and services for sale offends human dignity. If everything is commodified, then nothing is sacred. The market corrodes our character. Or so most people say. In *Markets without Limits*, Jason Brennan and Peter Jaworski give markets a fair hearing. The market does not introduce wrongness where there was not any previously. Thus, the authors claim, the question of what rightfully may be bought and sold has a simple answer: if you may do it for free, you may do it for money. Contrary to the conservative consensus, they claim there are no inherent limits to what can be bought and sold, but only restrictions on how we buy and sell.
