De grit factor Angela Duckworth 2016-10-11 Waarom hebben getalenteerde mensen vaak moeite om hun doelen te bereiken terwijl minder begaafde individuen soms zonder slag of stoot verbazingwekkende prestaties leveren? Op basis van haar eigen verhaal als dochter van een wetenschapper die zich vaak beklagde over haar vermeende gebrek aan intelligentie, beschrijft Angela Duckworth haar loopbaan door het onderwijs, de consultancybusiness en de neurowetenschap. Het leidde tot de hypothese dat werkelijk succes vooral ontstaat door een speciale mix van volledige overgave en de vastberadenheid om te werken aan je langetermijndoelen: grit. In dit boek doet Duckworth, winnaar van de prestigieuze MacArthur Genius Award, haar theorie uit de doeken en helpt ze iedereen om aan de hand van zes kernwaarden hun eigen grit-factor te bepalen: hoop, inspanning, precisie, passie, rituelen en prioriteiten. Grit gaat voorbij aan clichés als 'succes is vooral hard werken' en biedt een frisse en motiverende manier om zelf ongekende resultaten te behalen.

The Art and Science of Negotiation Howard Raiffa 1985-03-15 Whether you are selling a house, closing a business deal, settling a divorce, arbitrating a labor dispute, or trying to hammer out an international treaty, Howard Raiffa's new book will measurably improve your negotiating skills. Although it is a sophisticated self-help book—directed to the lawyer, labor arbitrator, business executive, college dean, diplomat—it is not cynical or Machiavellian: Raiffa emphasizes problems and situations where, with the kinds of skills he aims to develop, disputants can achieve results that are beneficial to all parties concerned. Indeed, he argues that the popular “zero-sum” way of thinking, according to which one side must lose if the other wins, often makes both sides worse off than they would be when bargaining for joint mutual gains. Using a vast array of specific cases and clear, helpful diagrams, Raiffa not only elucidates the step-by-step processes of negotiation but also translates this deeper understanding into practical guidelines for negotiators and “intervenor.” He examines the mechanics of negotiation in imaginative fashion, drawing on his extensive background in game theory and decision analysis, on his quarter-century of teaching nonspecialists in schools of business and public policy, on his personal experiences as director of an international institute dealing with East/West problems, and on the results of simulated negotiation exercises with hundreds of participants. There are popular books on the art of winning and scholarly books on the science of negotiation, but this is the first book to bridge the two currents. Shrewd, accessible, and engagingly written, it shows how a little analysis sprinkled with a touch of art can work to the advantage of any negotiator.

Fiduciaries of Humanity Evan J. Criddle 2016-07-28 Public international law has embarked on a new chapter. Over the past century, the classical model of international law, which emphasized state autonomy and interstate relations, has gradually ceded ground to a new model. Under the new model, a state's sovereign authority arises from the state's responsibility to respect, protect, and fulfill human rights for its people. In *Fiduciaries of Humanity: How International Law Constitutes Authority*, Evan J. Criddle and Evan Fox-Decent argue that these developments mark a turning point in the international community's conception of public authority. Under international law today, states serve as fiduciaries of humanity, and their authority to govern and represent their people is dependent on their satisfaction of numerous duties, the most general of which is to establish a regime of secure and equal freedom on behalf of the people subject to their power. International institutions also serve as fiduciaries of humanity and are subject to similar fiduciary obligations. In contrast to the receding classical model of public international law, which assumes an abiding tension between a state's sovereignty and principles of state responsibility, the fiduciary theory reconciles state sovereignty and responsibility by explaining how a state's obligations to its people are constitutive of its legal authority under international law. The authors elaborate and defend the fiduciary model while exploring its application to a variety of current topics and controversies, including human rights, emergencies, the treatment of detainees in counterterrorism operations, humanitarian intervention, and the protection of refugees fleeing persecution.

Objective First Student's Book with Answers with CD-ROM Annette Capel 2014-01-30 Fourth edition of the best-selling Cambridge English: First (FCE) course, updated to prepare for the 2015 revised exam. The Student's Book with answers contains fresh, updated texts and artwork that provide solid language development, lively class discussion and training in exam skills. The 24 topic-based units include examples from the Cambridge English Corpus to highlight common learner errors, while vocabulary sections informed by the English Vocabulary Profile ensure that students are learning the most useful language required at this level. A phrasal verb list provides a handy reference. The interactive CD-ROM provides comprehensive extra practice of the language and topics covered in the book. The Class Audio CDs contain the recordings for all the listening exercises.

Guide to State Politics and Policy Richard G. Niemi 2013-10-18 No previous book has pulled together into one place a single, comprehensive volume that provides up-to-date coverage of state government and politics, along with the states' current and future public policies. This new book does just that, offering students, scholars, citizens, policy advocates, and state specialists accessible information on state politics and policy in 34 topical chapters written by experts in the field. The guide provides contemporary analysis of state institutions, processes, and public policies, along with both historical and theoretical perspectives that help readers develop a comprehensive understanding of the 50 U.S. states' complex and changing political spheres. Those who use this volume—from experienced scholars to neophytes—can rely upon the guide to provide: Basic factual information on state politics and policy Core explanatory frameworks and competing arguments Insightful coverage of major policy areas as they have played out in the states.
