Africa in Global History Toyin Falola 2021-12-06 This handbook places emphasis on modern/contemporary times, and offers relevant sophisticated and comprehensive overviews. It aims to emphasize the religious, economic, political, cultural and social connections between Africa and the rest of the world and features comparisons as well as an interdisciplinary approach in order to examine the place of Africa in global history. "This book makes an important contribution to the discussion on the place of Africa in the world and of the world in Africa. An outstanding work of scholarship, it powerfully demonstrates that Africa is not marginal to global concerns. Its labor and resources have made our world, and the continent deserves our respect." – Mukhtar Umar Bunza, Professor of Social History, Usmanu Danfodiyo University, Sokoto, and Commissioner for Higher Education, Kebbi State, Nigeria "This is a deep plunge into the critical place of Africa in global history. The handbook blends a rich set of important tapestries and analysis of the conceptual framework of African diaspora histories, imperialism and globalization. By foregrounding the authentic voices of African interpreters of transnational interactions and exchanges, the Handbook demonstrates a genuine commitment to the promotion of decolonized and indigenous knowledge on African continent and its peoples." – Samuel Oloruntoba, Visiting Research Professor, Institute of African Studies, Carleton University

Africa: Crude Continent Duncan Clarke 2010-07-23 Based on thirty years in the global oil game, intimate knowledge of African history and direct experience of over forty countries, this comprehensive book shows that Africa's flaws are not

the whole story, when it comes to the continent's history. A definitive yet original account of the rush for Africa's oil, this is also a guide to the hidden face of Africa. Duncan Clarke begins by placing African oil issues in their historical context before tackling the issues of power, nationalism and different parties' strategies for control that have led to today's oil scene. This book is the ultimate reference work on oil in Africa - which is vital to everyone's future around the world.

TRIUMPH OF RACISM: The History of White Supremacy in Africa and How Shithole Entered the U.S Presidential Lexicon
Emmanuel Neba-Fuh 2021-04-05 Emmanuel Neba-Fuh in this comprehensive chronological compilation and thorough narrative of the history of white supremacy in Africa provide an unflinching fresh case that African poverty - a central tenet of the "shithole" demonization, is not a natural feature of geography or a consequence of culture, but a direct product of imperial extraction from the continent – a practice that continues into the present. A brutal and nefarious tale of slave trade, genocides, massacres, dictators supported, progressive leaders murdered, weapon-smuggling, cloak-and-dagger secret services, corruption, international conspiracy, and spectacular military operations, he raised the most basic and fundamental question - how was Africa (the world's richest continent) raped and reduced to what Donald J. Trump called "shithole?" (V. Mbanwie)

Mistaking Africa Curtis Keim 2021-12-28 For many in the west, the mention of Africa immediately conjures up images of safaris, ferocious animals, sparsely dressed "tribesmen," and impenetrable jungles. Newspaper headlines rarely touch on Africa, but when they do, they often mention authoritarian rule, corruption, genocide, devastating illnesses, or civil war. Advertising, movies, amusement parks, cartoons, and many other corners of society all convey strong mental images of the continent that together form a collective consciousness. Few think to question these perceptions or how they came to be so deeply lodged in western minds. *Mistaking Africa* looks at the historical evolution of this mind-set and examines the role that popular media plays in its creation. The authors address the most prevalent myths and preconceptions and demonstrate how these prevent a true understanding of the enormously diverse peoples and cultures of Africa. Updated throughout, the fifth edition considers images of Africa from across the world and provides new analysis of what Africans

are doing themselves to rewrite the stories of their continent, particularly through social and digital media. Mistaking Africa is an important book for African studies courses and for anyone interested in unraveling misperceptions about the continent.

The Asante World Edmund Abaka 2021-05-30 The Asante World provides fresh perspectives on the Asante, the largest Akan group in Southern Ghana, and what new scholars are thinking and writing about the "world the Asante made." By employing a thematic approach, the volume interrogates several dimensions of Asante history including state formation, Asante-Ahafo and Bassari-Dagomba relations in the context of Asante northward expansion, and the expansion to the south. It examines the role of Islam which, although extremely intense for just a short time, had important ramifications. Together the essays excavate key aspects of Asante political economy and culture, exemplified in kola nut production, the kente/adinkra cloth types and their associated symbols, proverbs, and drum language. The Asante World explores the Asante origins of Jamaican maroons, Asante secular government, contemporary politics of progress, governance through the institution of Ahemaa or Queenmothers, epidemiology and disease, and education in the twentieth and twenty-first centuries. Featuring innovative and insightful contributions from leading historians of the Asante world, this volume is essential reading for advanced undergraduates, postgraduates, and scholars concerned with African Studies, African diaspora history, the history of Ghana and the Gold Coast, the history of Islam in Africa, and Asante history.

Themes, Issues and Problems in African Philosophy Isaac E. Ukpokolo 2017-01-31 This volume provides the key to a deepened discourse on philosophy in Africa. Available literature and academic practice in African philosophy since the 1960s have largely featured discourses in the areas of origin, general meaning and nature of the discipline, with little attention given to specialized areas. By contrast, this book examines a noticeable shifting focus from such general concerns to more specific subject-matter, in such areas as epistemology, moral philosophy, metaphysics, aesthetics, and social and political philosophy in the light of the African experience. The volume includes specific discourses from expert contributors on the nature, history and scope of African ethics and metaphysics, while also discussing particular themes in African epistemology, philosophy of education, existentialism and political philosophy. Researchers seeking for new perspective on African philosophy will find this work thought-provoking, instructive and informative.

Identity, Citizenship, and Violence in Two Sudans: Reimagining a Common Future A. Idris 2013-08-20 The 2011 split of Sudan and the conflicts that have followed make it a case of ongoing significance for understanding state-building in Africa. Black Theology--Essays on Global Perspectives Dwight N. Hopkins 2017-06-15 Since its start in 1966, black liberation theology in the United States has continually engaged international developments with Africa and the entire world. But after Nelson Mandela was released from prison in February 1990, there has been an almost twenty-year break in books on black theology and international affairs. **Black Theology--Essays on Global Perspectives** bridges that post-1990 gap and makes a vital contact with Africa again. This book conceptualizes black theology to take on the global reconfigurations and opportunities brought about by the rapidly shrinking earth of fast-paced, worldwide contacts. In other words, in the specificity of the genealogy of black theology, we need to reforge ties with Africa. This claim is based on tradition. And in the generality of the larger worldwide intertwining of technologies and economics, we need a new type of black theological leadership for the twenty-first century. This claim is based on today's international challenges. The essays in this book draw on tradition and point forward in the midst of today's worldwide challenges and favorable possibilities, given the closeness of all nations and the varieties of cultures.

1493 Charles C. Mann 2013-02-20 Hoe de wereld zich ontwikkelde na de ontdekking van Amerika De reizen van Columbus vormden het begin van een bijzondere uitwisseling van flora en fauna tussen Eurazië en Noord- en Zuid-Amerika. Zo vonden onder meer tomaten, aardappelen, mais, zilver en rubber hun weg naar Eurazië, en omgekeerd zijde, paarden, graan, koffie, appels - en slaven niet te vergeten - naar Noord- en Zuid-Amerika. Een minder welkome uitwisseling was uiteraard die van insecten, bacteriën en virussen. Charles Mann laat zien dat deze zogeheten Columbian Exchange heeft gezorgd voor de opkomst van Europa, de ondergang van het Chinese keizerrijk en de versterking van de ecologie in Afrika. Met 1493 heeft bestsellerauteur Charles Mann de belangrijkste biologische gebeurtenis sinds het uitsterven van de dinosauriërs onder de aandacht van een groot publiek weten te brengen. Charles Mann is correspondent voor *The Atlantic* en *Science*, en schrijft onder meer voor *Fortune*, *The New York Times* en *The Washington Post*. Zijn boek *1491*. Wat we zien als we lezen Peter Mendelsund 2015-06-27 Heeft Tolstoj Anna Karenina echt beschreven? Heeft Melville ons ooit precies laten weten hoe Ismaël eruitzag? Of Faulkner zijn personage Benjy Compson? De verzameling van versplinterde beelden in een boek – hier een sierlijk oor, daar een losgeraakte krul, een zwierig opgezette hoed – en andere hints en aanwijzingen helpen ons lezers om een beeld van een personage of van de setting te krijgen, zonder dat de schrijver het expliciet beschrijft. Sterker nog: dit is precies wat lezen zo leuk maakt. Aan de hand van talloze voorbeelden uit de wereldliteratuur laat dit schitterende en rijk geïllustreerde boek zien hoe dit unieke visuele proces van de lezer werkt. Peter Mendelsund is de huisontwerper van uitgeverij Alfred A. Knopf en voormalig pianist. Hij ontwierp omslagen voor onder anderen Martin Amis, Stieg Larsson, David Mitchell en Kazuo Ishiguro. The Face of Africa Stan Chu Ilo 2012-12-01 This book is a call on Africans and non-Africans to once more believe in the possibility of a better future for Africa. In these pages, Stan Chu Ilo writes of his experience and the experiences of many young Africans like himself who are disturbed by the present condition of Africa. He writes about the challenges facing most Africans who are growing up in the African continent without any hope of quality education, without any guarantee of adequate food, water, housing, and clothing; without any hope of getting a job, and without any prospect of living in peace with their neighbors. He writes of the sad situation of millions of young Africans who are dying of malaria and HIV/AIDS, and the African women whose fate and fortune have been shackled by a male-dominated society. He questions the bases of the existence of the failed states of Africa, who are caught up in a cycle of violence and disorder and who are not asking the right questions about the future of their nations. He argues that corruption, excessive authoritarianism, a stubborn hold on power, and lack of openness to consensus-building among some African leaders insult the cultural value of Africans with regard to a sense of community, love and solidarity. He also writes of the pain of globalization, the

debt burden, immigration and trade restrictions on Africans and African countries, exploitation of ordinary Africans by fellow Africans and Western governments and business conglomerates. He wonders why many Western nations should turn their backs on Africa, when they all share some responsibility in bringing Africa to her knees. However, even though many Africans have become exhausted in the battle for national survival and for a living space to pursue their ordered ends, this book proposes that Africans should not claim perpetual victimhood, rather they should stand up once more and work for a better tomorrow, which is possible, and within their reach. Ilo insists that the imposing mountains of economic and social ruin; the rising moans and groans of numberless Africans, should not weaken the inner energy and ardent hopes of millions of Africans struggling against the untested assumption, that the cracking social, political, and economic foundations of present day Africa, are incapable of supporting the structures of a new Africa. The face of Africa today is ugly, but behind the ugly face is the beauty that has been distorted by historical and cultural factors. The present condition of Africa is only the sign of the urgent need for the peoples of Africa to brace up for the long and hard journey to reclaim their future. Ilo outlines how non-Africans who are interested in the African condition can be involved with the peoples of Africa. A proper understanding of the African continent and her peoples, her history and cultural evolution is a necessary first step for those who wish to be engaged with the Africans. His total picture approach model as the key to interpreting the African condition and in comprehensively addressing the challenges facing Africa, offers a helpful and original tool in understanding Africa. It helps to overcome the stereotypes, prejudices and paternalism which non-Africans apply in their reading of African history and their relation with the African reality. With masterly skills, a keen sense of history, a balanced perspective and objectivity, Ilo identifies the constraints to growth and innovation in Africa in terms of the low stocks in the human-capital and cultural development. He introduces a new concept in the interpretation of the African condition: homelessness in terms of cultural and existential crises that confront Africans today. His conclusion is that cultural and human development is the irreducible decimal in any proposal for the transformation of the continent; that grassroots village-based action should be preferred over bogus and unworkable national approaches to African development.

African Americans and Africa Nemata Amelia Ibitayo Blyden 2019-05-28 An introduction to the complex relationship between African Americans and the African continent What is an “African American” and how does this identity relate to the African continent? Rising immigration levels, globalization, and the United States’ first African American president have all sparked new dialogue around the question. This book provides an introduction to the relationship between African Americans and Africa from the era of slavery to the present, mapping several overlapping diasporas. The diversity

of African American identities through relationships with region, ethnicity, slavery, and immigration are all examined to investigate questions fundamental to the study of African American history and culture.

White Athena Walter Slack 2015-06-26 Return to the fray of the Afrocentrist movement in the second volume of *White Athena*. Walter Slack follows up his first volume, which took to task those who claim that the Greeks and others stole their philosophy, science, and culture from black Africans—arguing that the world needs to give credit to the right people. This volume is much less a comparison of diverse philosophies and cosmologies, and much more an evaluation of claims regarding imagined imports of technical, cultural, religious, and practical artifacts. Slack examines numerous Afrocentrist claims, including that cultural tutors from black Africa roamed early Europe, Muslim Spain, and pre-Columbian Mesoamerica and even traveled to ancient China with all sorts of cultural, intellectual, and scientific contributions. The author concludes that most damaging to the credibility of Afrocentrists is their willingness to adopt any and every theory that supports their ideological thesis of African cultural supremacy—overtly or covertly—based upon race. Open your mind to an honest and impartial view of world history with *White Athena*, Volume 2.

Patrick van Rensburg Kevin Shillington 2020-07-01 This sensitive and compelling biography of Patrick van Rensburg does justice to a giant of a man, controversial throughout his life but undeniably a hero. Born in KwaZulu-Natal into what he described as 'a very ordinary South African family that believed in the virtue of racism', Patrick van Rensburg was to become a rebel with several causes. In his case they were, initially, the fight against apartheid and, later, a unique contribution to education, which, as he would tell his audience when he accepted the prestigious Right Livelihood Award, 'as I saw it then, was a necessary tool of development'. Exiled from South Africa because of his involvement in the boycott campaign in London that gave birth to the Anti-Apartheid Movement, Van Rensburg went to Serowe in Botswana (then Bechuanaland), where he founded co-operatives, provided vocational training and was one of the earliest people to espouse the discipline of development studies. Perhaps his best-known legacies were Swaneng Hill School, in which he involved his pupils in building their school, running it, providing their own food and making their own equipment and furniture, and 'brigades' to provide an educational home for primary school 'dropouts' through a curriculum that combined theory and practice, mental and manual labour. This sensitive and compelling biography does justice to a giant of a man, controversial throughout his life but undeniably a hero.

De staat van Afrika Richard Dowden 2012-12-21 Voor 'De staat van Afrika' reisde Richard Dowden decennialang door Afrika. Hij keek verder dan armoede, oorlog en ziekte. Hij luisterde, leerde en analyseerde. Elke keer als iemand zegt 'Afrika is...', verbrokkelen de woorden. Bij elke generaliserende uitspraak moeten op zijn minst vijf landen worden

uitgesloten. En net als je denkt dat je iets met zekerheid hebt vastgesteld, dat je een bepalende karakteristiek hebt gevonden, doet zich het tegendeel op andere plaatsen voor. Afrika zit vol verrassingen. Decennialang reisde Richard Dowden door Afrika. Hij keek verder dan armoede, oorlog en ziekte. Hij luisterde, leerde en analyseerde. Door de persoonlijke verhalen die hij vertelt, brengt Dowden de Afrikaanse geschiedenis tot leven.

Prophet from the South Prince Dibeela 2014-08-01 Allan Boesak was one of the foremost leaders in the struggle against apartheid. His role in the church in South Africa, internationally and in the United Democratic Front, contributed significantly to the demise of apartheid. He championed the rights of the oppressed and became the representative voice of the poor and disadvantaged. Allan is a gifted preacher, teacher, theologian, writer and an orator blessed with poetic tendencies and a flourishing vocabulary. He has the natural ability to inspire, motivate and stimulate critical and analytical thinking and responses) where globalisation threatens to be a new form of colonisation. He has eloquently championed the cause of economic justice, justice for the earth, gender justice and the struggle against homophobia in the church. His voice is a voice we urgently need to hear again in this era.

Eritrea at a Crossroads Andebrhan Welde Giorgis 2014 I congratulate Andebrhan Welde Giorgis on his high quality and extremely informative book that has not only the merit to be an update on the political situation in Eritrea but also asks the pertinent questions on the future of his marvelous country. He does it with tact and success, based on his long experience as freedom fighter, as senior public servant, as Ambassador and his rich experience of Africa. Each country in Africa must be able to determine its own future. Freedom, responsibility, control over its destiny, and solidarity, are the key ideas of the new vision for international cooperation that will help ensure the sustainability of the development process. The urgent need to create a democratic government resonates throughout the book. Good governance, respect for human rights, principles of democracy, and rule of law are essential universal values underpinning it. Andebrhan is one of those men, visionaries, and open to dialogue, reform and change. Eritrea at a Crossroads is key to understanding the challenges facing Eritrea and Africa. It is an eye opener on a complex and little understood crisis that is festering in Africa and holding the continent back. The book provides a solid intellectual foundation to understanding the region and will give anyone who wants to build a better future for Africa a great starting point. I congratulate him on this most valuable book which finds its place among all the lovers of Africa. Louis Michel Member of European Parliament, European Commissioner for Development and Humanitarian Aid (2004-2009) and Foreign Minister of Belgium (1999-2004) Freedom fighter, scholar, central banker, diplomat, and now unhappy exile, no-one could be better placed than Andebrhan Welde Giorgis to trace Eritrea's distressing slide from triumph to tragedy. It's a harrowing story, but the author

tells it comprehensively, objectively and lucidly in this excellent study. The future can be rescued, as Andebrhan makes clear, but only if the past is understood, and the present confronted -- by decent, concerned Eritreans, acting with the moral, political and economic support of the wider international community. May his voice be heard. Gareth Evans Chancellor, Australian National University; President, International Crisis Group (2000-09) and Foreign Minister of Australia (1988-96)

From Russia With Blood Heidi Blake 2019-11-19 Oligarch Boris Berezovski overleed onder verdachte omstandigheden; veiligheidsdienstmedewerker Aleksandr Litvinenko bezweek aan de gevolgen van een poloniumvergiftiging; Sergej Skripal, medewerker van een militaire inlichtingendienst, en zijn dochter Joelia werden blootgesteld aan zenuwgas. Ook buiten Rusland worden critici, opposenten en 'verraders' uit de weg geruimd. Het grote aantal brutale moorden en de groeiende omvang van spionage en hacking in het Westen wijzen op de ambities van Rusland om wereldwijd zijn invloed te vergroten. Zelfs de machtigste landen kunnen het Kremlin en Vladimir Poetin niet stoppen. Bekroond onderzoeksjournalist Heidi Blake reconstrueert de vele moordzaken en analyseert de consequenties van de strategie van Rusland en van de halfhartige reactie van het Westen. Heidi Blake heeft haar verhaal gebaseerd op forensisch bewijs, informatie van geheime diensten, vele duizenden documenten en honderden interviews met sleutelfiguren.

Waarom sommige landen rijk zijn en andere arm Daron Acemoglu 2012-11-02 Het is een van de grote wereldvraagstukken: waarom zijn sommige landen rijk en andere arm? Ligt de verklaring in culturele verschillen, het klimaat of geografische omstandigheden? Of is er een andere oorzaak? Waarom is bijvoorbeeld Botswana een van de snelst groeiende economieën ter wereld en blijven andere Afrikaanse landen, zoals Zimbabwe en Congo, ondergedompeld in geweld en armoede? Daron Acemoglu en James Robinson laten overtuigend zien dat het de politieke en economische instituties zijn die het economische succes of falen van een land bepalen; instituties die innovatie en economische groei stimuleren en welvaart en vrede garanderen. De auteurs illustreren hun betoog met tal van fascinerende voorbeelden. Eén daarvan is Korea, een in wezen homogene staat. In Zuid-Korea legt de overheid verantwoording af aan de burgers en heeft de bevolking volop economische kansen; het land is zeer welvarend. Noord-

Korea wordt dictatoriaal geregeerd en kent al tientallen jaren onderdrukking en hongersnood. Op basis van vijftien jaar veldonderzoek en historische research hebben de auteurs een nieuwe, overtuigende politiek-economische theorie geformuleerd. Waarom sommige landen rijk zijn en andere arm laat ons met andere ogen naar de wereld kijken en geeft een dieper inzicht in de oorzaken van armoede en rijkdom. Daron Acemoglu is hoogleraar economie aan het MIT. Hij ontving de John Bates Clark Medal. Degenen die deze onderscheiding krijgen, worden beschouwd als belangrijke kanshebbers voor de Nobelprijs. James Robinson is politiek wetenschapper en econoom. Hij is hoogleraar aan Harvard University en een wereldberoemde Latijns-Amerikaan Afrikadeskundige. 'Acemoglu en Robinson hebben een boeiend en zeer lezenswaardig boek geschreven.' Niall Ferguson 'In Why Nations Fail staan zo veel goede dingen, dat ik onmogelijk alles kan opnoemen.' Charles C. Mann 'Acemoglu en Robinson hebben een belangrijk boek geschreven, dat het verdient te worden gelezen door politici en economen waar ook ter wereld.' Het Financieele Dagblad 'Waarschijnlijk leest u net als ik dit boek in één keer uit en neemt u het daarna nog vaak ter hand.' Jared Diamond, auteur van Zwaarden, paarden & ziektekiemen

Luka Jantjie K. Shillington 2011-09-15 Luka Jantjie is today a largely forgotten hero of resistance to British colonialism. His place in South African history has tended to be overshadowed by events elsewhere in the region. This book attempts to redress the balance by recording his remarkable story. In 1870, at the beginning of the Kimberley diamond mining boom that was to transform southern Africa, Luka Jantjie was the first independent African ruler to lose his land to the new colonialists, who promptly annexed the diamond fields. His outspoken stand against the hypocrisy of colonial 'justice' earned him the epithet: "a wild fellow who hates the English." As the son of an early Christian convert, Luka was brought up to respect peace and non-violence; his boycott of rural trading stores in the early 1890s was perhaps the earliest use of non-violent resistance in colonial South Africa. His steady refusal to bow to colonial demands of subservience intensified the enmity of local colonists determined to "teach him a lesson". As many of his people succumbed to colonial pressures, Luka was twice forced to take up arms to defend himself and his people from colonial attacks. His life ended in a dramatic and heroic last stand in the ancestral sanctuary of the Langeberg mountain range; its tragic consequences stretched far into the next century.

A Primer for Teaching African History Trevor R. Getz 2018-03-16 A Primer for Teaching African History is a guide for college and high school teachers who are teaching African history for the first time, for experienced teachers who want to

reinvigorate their courses, for those who are training future teachers to prepare their own syllabi, and for teachers who want to incorporate African history into their world history courses. Trevor R. Getz offers design principles aimed at facilitating a classroom experience that will help students navigate new knowledge, historical skills, ethical development, and worldviews. He foregrounds the importance of acknowledging and addressing student preconceptions about Africa, challenging chronological approaches to history, exploring identity and geography as ways to access historical African perspectives, and investigating the potential to engage in questions of ethics that studying African history provides. In his discussions of setting goals, pedagogy, assessment, and syllabus design, Getz draws readers into the process of thinking consciously and strategically about designing courses on African history that will challenge students to think critically about Africa and the discipline of history.

Between Ethics and Politics: Lessons from Biafra Tobe Nnamani 2016-06-08 Although many years have elapsed since the demise of Biafra, it still remains an intractable unfinished business that seriously threatens the corporate existence of Nigeria. Most of the literature on Biafra tended to dwell more on the historical and political analysis of the war and how the factors that engendered it could be tackled. It appears however, that no ethical analysis of the issues involved in the Biafran war has been carried out in any significant academic endeavour, hence the reason and need for a critical analytical survey of the ethical and political implications of the role of the world community in the unprecedented events that took place in Biafra. The purpose of this book is, first, to understand the twist and turns of the events and issues involved in the Biafran crisis and the role the international community played in the war. Second is to articulate the complex nature of humanitarian intervention and to stress the relevance of ethics, its interpenetration, and tandem relationship with international relations on a broader level, and in particular, humanitarian intervention as a foreign policy action. The main claim of our argument is that ethics is part and parcel of international relations. Divorcing ethics from international relations leads to amorality that threatens the world order. Behind this basic thesis, the book defends the idea of a global ethic. Global ethic means an ethic which acknowledges respect for human life and the interconnectedness and interdependence of all human beings. It is an ethic which transcends the circumscribed confines of national boundaries and economic and geopolitical interests and opens them up to the larger urgent need, well-being, peaceful coexistence, and sustainability of the larger world community.
