Women, Church, and Leadership: New Paradigms Eunjoo Mary Kim 2012-04-06 This book is about leadership, a scholarly and pastoral response to the urgent demand for the renewal of the contemporary Christian church. It challenges readers to articulate the identity and vision of the church in new ways, and encourages them to revitalize their ministry with fresh insight and passion from women's perspectives. The eight essays written by female scholars in relation to various areas of theological study and the nine pastoral responses to the essays written by ministers from seven different denominations, based on their experiences of actual ministerial settings, provide new paradigms of church leadership--theologically profound, practically relevant, and historically timely. This volume, a product of a collaborative process between academia and church, promises to be a most useful resource to renew the leadership of the church and its vocational commitment to the transformation of the church and society.

Now, Heifetz, Linsky, and coauthor Alexander Grashow are taking the next step: The Practice of Adaptive Leadership is a hands-on, practical guide containing stories, tools, diagrams, cases, and worksheets to help you develop your skills as an adaptive leader, able to take people outside their comfort zones and assess and address the toughest challenges. The authors have decades of experience helping people and organizations create cultures of adaptive leadership. Journey in the Wilderness Gil Rendle 2010-10-01 The last forty years have seen transitions in mainline churches that feel, for many, like a journey into the wilderness. Yet God is calling us in this moment, not to grieve over the changes we have experienced but to hear the call to a new mission, and a new faithfulness. In Journey in the Wilderness, Gil Rendle draws on decades as a pastor and church consultant to point a way into a hopeful future. The key to embracing the wilderness is to learn new skills in leading change, to reach beyond a position of privilege and power to become churches that serve God's hurting people.

Tell Me So I Can Hear You Eleanor Drago-Severson 2017-11-14 In Tell Me So I Can Hear You, Eleanor Drago-Severson and Jessica Blum-DeStefano show how education leaders can learn to deliver feedback in a way that strengthens relationships as well as performance and builds the capacity for growth. Drawing on constructive-developmental theory, the authors describe four stages of adult growth and development and explain how to differentiate feedback for colleagues with different "ways of knowing," which include: • Instrumental knowers, who tend to see things in black and white ("Did I do it right or wrong?") and may need to develop the capacity for reflection. • Socializing knowers, who are concerned with maintaining relationships ("What do you want me to do?") and may need support developing their own ideas. • Self-authoring knowers, who have strong ideologies and values ("How does this fit with my goals and vision?") and may need help with perspective taking. • Self-transformative knowers, who are able to examine issues from multiple points of view ("How can I understand this more deeply?") and may need guidance in resolving tensions and contradictions. The authors show how leaders can provide feedback in ways that "meet people where they are" while expanding the developmental capacities educators bring to their work. Drago-Severson and Blum-DeStefano provide real-life examples with practical strategies for creating a safe space for feedback, finding the right words, and bridging feedback and action. Tell Me So I Can Hear You offers invaluable guidance to help educators support a culture of learning in classrooms, schools, and districts.

Lord, I Love the Church and We Need Help Virginia O. Bassford 2012-02-01 Do we ask too much? No, we've asked too little. Change, chaos, confusion – how can a pastor make sense of it all? The tap root of United Methodism goes deep into fertile soil – firmly planted in Scripture and enriched by the Holy Spirit. Our theology is rich and grounded into the depths of community and accountability, but the way we live out that theology is wide and deep-- both bane and blessing. United Methodists are neither blown away like chaff nor root-bound. Our calling is still to strive to be methodically faithful and alive in Spirit. This is our heritage and our vision. But will we dare to lean into the winds of change and be strengthened by the challenges we find? Only with God's help.

Faces Beyond Sacred Walls B. R. Mims 2012-02-22 Faces Beyond Sacred Walls is not a how-to book as much as it is one for individual and church-corporate self-reflections about their social advocacy role to the community of the poor and oppressed. The author takes the reader on a self-examining journey through the difficult and often painful introspective process for addressing the Church's social advocacy role in response to God's original mandate for the poor found throughout the Bible. Using Luke 4:18-19, 21 as his foundational biblical principle for writing, the author stresses the Church, by divine design, has a dual role: evangelism (salvation) and mission (benevolence or poverty relief). In any given context, they may and should complement each other. However, there should be no conflict between ones' commitment as disciples to evangelism and poverty relief. They are hand-in-hand. Through biblical narratives, the author brings the reader to focus on inner conviction about the advocacy's role of the local church. He begins with the premise that the fundamental starting point for transformation and social engagement is our recognition of the integral value in humanity, the beauty of God so often hidden by sin and failure and pain and brokenness. As you read, you will discover the artful dialogue the author implores in highlighting the importance of self-examination towards transformation and social engagement for the purpose of calling the body of Christ in local churches to committed service and ministry to the community of the poor and oppressed. The author makes it plain that if it is our goal to know Christ and make Him known, then Christ will reveal Himself to us as we come face-to-face with "the least of these" in ways we will never meet Him in a Bible study, prayer meeting, or sermon. The author painstakingly argues and engages the reader through such subject matters as God's Mandate for Social Advocacy, The Early Church Concerns for the Poor, Theological Claims for Social Engagement, The Church's Answer to Poverty, Leadership Paradigm Shift, Social Advocacy Challenges, and Rethinking Programs of the Church. Each subject is designed to present a forum for relevant conversation for anyone concerned about the plight of the poor, poverty, lack of relief or means of navigating the bureaucratic system to access such relief, and the role of the church in such a situation. Using the idea of walls, the reader is drawn into an opportunity for serious reflection and dialogue about church-community relationships. Important, because as the author explains, beyond our "specific" sacred walls you will find the many obscure faces of a socially-hurting society: faces that tell stories. Too often, they are specific faces reduced to nothing more than statistics and, at deeper level, testimonies against churches in their community of influence. They are the poor, deemed marginalize by way of costs spent on their behalf and needs that remain unfulfilled. Seldom are they seen as individuals with personalities and considered as deserving of respect. They are nothing more than obscure faces...waiting to be acknowledged. The conclusion of the author is the church has an obligation to engage the entire membership in a journey of discovery about what God is calling them to be, to know, and to do in their lives, and how they can exercise that calling through the church. It is the journey to understand oneself as living in the presence of God and actively engaging in the disenfranchised poor and oppressed community for relief from injustice, brokenness, and suffering. The world is watching to see who truly loves others enough to take action. God is watching to see who is like Him and will love a poor and needy world. One thing for sure, when the church (collectively and individually) makes social advocacy a priority in its life and ministry, it can never expect to be the same.

Just War Reconsidered James M. Dubik 2016-08-12 In the seminal Just and Unjust Wars, Michael Walzer famously considered the ethics of modern warfare, examining the moral issues that arise before, during, and after conflict. However, Walzer and subsequent scholars have often limited their analyses of the ethics of combat to soldiers on the ground and failed to recognize the moral responsibilities of senior political and military leaders. In Just War Reconsidered: Strategy, Ethics, and Theory, James M. Dubik draws on years of research as well as his own experiences as a soldier and teacher to fill the gaps left by other theorists. He applies moral philosophy, political philosophy, and strategic studies to historical and contemporary case studies to reveal the inaccuracies and moral bankruptcy that inform some of the literature on military ethics. Conventional just war theory adopts a binary approach, wherein political leaders have moral accountability for the decision to go to war and soldiers have accountability for fighting the war ethically. Dubik argues, however, that political and military leadership should be held accountable for the planning and execution of war in addition to the decision to initiate conflict. Dubik bases his sober reassessment on the fundamental truth that war risks the lives of soldiers and innocents as well as the political and social health of communities. He offers new standards to evaluate the ethics of warfare in the hope of increasing the probability that the lives of soldiers will not be used in vain and the innocent not put at risk unnecessarily.

Discourse on Leadership Bert A. Spector 2016-07-21 In a wide-ranging and provocative new study, Bert A. Spector provides a critical analysis of past and present theories of leadership. Spector asserts that our perception of leadership influences who we vote for, who we hire and promote, and ultimately, who we choose to grant our authority to. Focusing on leadership in discourse, the book sets out to explore how the notion of leadership has been articulated, studied and debated by academics, but also by practitioners, journalists, and others who seek to influence the thoughts of others. Paying particular attention to the social, economic, political, intellectual and historical forces that have helped shape the discussion, Discourse on Leadership offers an insightful historiography of leadership as a concept and how our understanding of it continues to evolve.

Truth Without Tears Carolyn R. Hodges 2021-02-25 Truth Without Tears is a timely and insightful portrait of Black women leaders in American colleges and universities. Carolyn R. Hodges and Olga M. Welch are former deans who draw extensively on their experience as African American women to account for both the challenges and opportunities facing women of color in educational leadership positions. Hodges and Welch deftly combine autobiography with more general information and observations to fashion an interesting and helpful book about higher education leadership. They offer their perspectives on being the first deans of color in two predominately white institutions in an effort to fill a gap that exists in the literature on deanships in higher education. Each chapter offers reflections or examples of the authors' particular experiences that have taught them how to become effective leaders. The book engages readers to consider ways of learning how to balance the need for action with "deliberative and deliberate approaches" that are grounded in maintaining decisiveness, accountability, and allegiance to organizational goals, especially those that support inclusiveness and diversity of perspective. A nuanced and complex depiction of successful leadership, Truth Without Tears is a valuable resource for current and aspiring higher education leaders.

Leadership on the Line Ronald Heifetz 2002 Every day, in every facet of our lives, opportunities to lead call out to us. At work and at home, in our local communities and in the global village, the chance to make a difference beckons. Yet often, we hesitate. For all its passion and promise, for all its excitement and rewards, leading is risky, dangerous work. Why? Because real leadership—the kind that surfaces conflict, challenges long-held beliefs, and demands new ways of doing things—causes pain. And when people feel threatened, they take aim at the person pushing for change. As a result, leaders often get hurt both personally and professionally. In Leadership on the Line, renowned leadership authorities Ronald A. Heifetz and Marty Linsky marshal a half century of combined teaching and consulting experience to show that it is possible to put ourselves on the line, respond effectively to the risks, and live to celebrate our efforts. With compelling examples including the presidents of countries and the presidents of organizations, everyday managers and prominent activists, politicians and parents, the authors illustrate proven strategies for surviving and thriving amidst the dangers of leading: "Getting on the balcony": stepping back to get perspective while remaining fiercely engaged "Thinking politically": keeping the opposition close, but watching your allies, too "Orchestrating the conflict": using stress productively to work the issues "Giving the work back": putting the responsibility on those who need to make the change "Holding steady": maintaining your focus while taking the heat The authors also address often-neglected aspects of leadership, such as how to manage your personal vulnerabilities, and how to anchor yourself and sustain your spirit through tough times. Both uplifting and practical, this essential book enables each of us to lead courageously and confidently—without losing ourselves. AUTHORBIO: Ronald A. Heifetz and Marty Linsky are on the faculty at the John F. Kennedy School of Government at Harvard University. Heifetz is the author of Leadership Without Easy Answers and Co-director of the school's Center for Public Leadership. Linsky is Faculty Chair of many of the school's executive programs, including Senior Officials in State and Local Government and Leadership for the 21st Century.

Debating Bad Leadership Anders Örténblad 2021-04-02 "This stimulating collection tackles the question that is uppermost in most of humanity's minds and hearts right now. The novel debating approach that is taken generates a rich understanding of the range of ways in which bad leadership is created, manifested and most importantly, remedied." - Professor Brad Jackson, Waikato Management School, The University of Waikato, New Zealand "In the midst of a world full of incompetent and incoherent leaders this book is exactly what we need: a veritable cornucopia of critical leadership studies." - Keith Grint, Professor Emeritus, Warwick Business School, UK "While we like to have leaders who guide, looking at the present state of the world, there are far too many leaders who misguide. It makes this anthology on bad leadership more than timely. The various contributors, taking many different

perspectives, highlight the ways leaders can go astray. In these very difficult times, this book will be a must read for anybody interested in this subject.” - Manfred F. R. Kets de Vries, Clinical Professor of Leadership “Debating Bad Leadership, edited by Anders Örténblad, is a book for this time! The rise of populism and the emergence of so-called ‘strong’ leaders in many countries have created a social, political, and economic climate that begs for closer examination of the origins, characteristics, and forms of, especially, bad leadership. Taking as its starting-point the question of why there are so many bad leaders in the corporate world, the impressive collection of chapters compiled in Debating Bad Leadership canvasses a comprehensive array of issues ranging from toxic, psychopathic, leadership and ethical failure to issues of poor selection, ill-considered recruitment, leader (in)competence, conflicted or weak followership, to the very concept of leadership itself. In debating these fundamental issues, this book illuminates and educates, and offers some remedies, both theoretically and practically. Debating Bad Leadership challenges scholars, students and practitioners of leadership to continue this fundamental discussion, for the benefit of us all.” - Gabriele Lakomski Professor Emeritus, Melbourne Centre for the Study of Higher Education, University of Melbourne, Australia. In this book, leadership experts explore why there are so many bad leaders, and suggest remedies for how the current situation could be improved. Some of the experts suggest that reasons for why bad leaders are so common are searched for in people: more specifically leaders-to-become, acting leaders or followers. Others suggest that reasons are to be found in the leadership role (or expectations on those having such role), in the lack of support for leaders, or in beliefs about leadership. On the backdrop of their suggested explanations as to why there are so many bad leaders, the experts suggest remedies that could be taken to decrease the number of bad leaders as well as their negative impact. The very presumption that this book rests upon also gets its fair share of critique, by some of the experts. Anders Örténblad is Professor of Working Life Science at the University of Agder, Norway. He is the editing founder of the book series Palgrave Debates in Business and Management.
