Pass the Bar Denise Riebe 2006 Pass the Bar! provides a comprehensive overview of the pre-bar review, bar review, and bar exam process. The authors demystify the bar exam process and take readers through the steps they need in order to succeed. Readers are given specific checklists, exercises, reflection questions; information about what to do during the year before their bar reviews begin; how to set the stage to succeed with their bar exams; how to study and approach practice questions; sample exam questions, and answers; and what additional study methods can maximize their chances of passing their bar exams. The book has been designed with several uses in mind: As the text for a for-credit law school bar preparation course As a supplemental text for an upper-division doctrinal course, allowing professors to build students' bar study skills in the context of learning a bar-tested subject As a text for non-credit bar preparation workshops For students' independent study Written in a straightforward and practical style, the authors' strategies are communicated in an informal, reader-friendly way. Their recommendations are grounded in educational and psychological research as well as their personal experiences in designing programs and working with students preparing to take bar exams. The Foreword is written by Professor Ruth Ann McKinney, Director of the Writing and Learning Resources Center at the University of North Carolina School of Law. A teacher's manual will accompany the text, and it will include the educational theory underlying the text, sample syllabi, sample lesson plans, teaching recommendations, for-credit course information, and many sample answers.

"Off the Straight Path" Elyse Semerdjian 2008-12-08 The legal treatment of sexual behavior is a subject that receives little scholarly attention in the field of Middle East women's studies. Important questions about the relationship between sexuality and the law and about the societies enforcing that relationship are rarely addressed in the current literature. Elyse Semerdjian's "Off the Straight Path" takes a bold step toward filling that gap by offering a fascinating look at the historical progression of the treatment of illicit sex under Islamic law. Semerdjian provides a comprehensive review of the concept of zina, i.e., sexual indiscretion, by exploring the diverse interpretation of zina crime as presented in a variety of sources from the Qur'an and hadith to legal literature. She then delves into the history of legal responses to zina within the specific community of Aleppo, Syria. Drawing on a wealth of shari'a court records, Semerdjian provides a realistic view of Syrian society during the Ottoman period. With vivid detail, she describes specific women's lives and experiences as their cases are presented before the court. Semerdjian argues that the actual treatment of zina crimes in the courts differs substantially from sentences prescribed by codified Islamic jurisprudence. In contrast to the violent corporal punishments dictated in the Islamic legal code, the courts often punished crimes of sexual indiscretion with nonviolent sentences, such as removal from the community. Employing exceptional insight, "Off the Straight Path" presents a powerful challenge to the traditional view of Islamic law, enabling a richer understanding of Islamic society.

North Carolina Electrical Restricted (Low Voltage) License Exam Review Questions and Answers Examreview 2018-09-15 The focus of low voltage exam is on power limited systems such as fiber optic, voice, data, cable TV and satellite...etc. In North Carolina, one needs to have pre-approval in order to sit for the examination. A separate North Carolina Business and Law exam does not exist, but the relevant information is incorporated into the Low Voltage exam. This product does not cover the business and law material. We create self-practice test questions module (with 150 questions) referencing NEC established technical standards (as well as a little bit of state specific licensing /OSHA requirements) currently valid in the trade. Each question comes with an answer and a short explanation which aids you in seeking further low voltage related technical information. This product focuses on the technical aspect of low voltage works in general. It does not specifically cover fire alarm, satellite or other specific disciplines. You should therefore use this product together with other study resources for the best possible exam prep coverage.

Origins of Law and Economics Heath Pearson 1997-05-28 This work analyzes the centrality of law in nineteenth-century historical and institutional economics and is a prehistory to the new institutional economics of the late twentieth century. In the 1830s the 'new science of law' aimed to explain the working rules of human society by using the methodologically individualist terms of economic discourse, stressing determinism and evolutionism. Practitioners stood readier than contemporary institutionalists to admit the possibilities of altruistic values, bounded rationality, and institutional inertia into their research program. Professor Pearson shows that the positive analysis of law tended to push normative discussions up from the level of specific laws to that of society's political organization. The analysis suggests that the professionalization of the social sciences - and the new science's own imprecision - condemned the program to oblivion around 1930. Nonetheless, institutional economics is currently developing greater resemblances to the now-forgotten new science.

Categorical Principles of Law Otfried Hoffe 2002 In Germany, Otfried Höffe has been a leading contributor to debates in moral, legal, political, and social philosophy for close to three decades. Höffe's work (like that of his contemporary, Jürgen Habermas), brings into relief the relevance of these German discussions to their counterparts in English-language circles. In this book, originally published in Germany in 1990 and expanded since, Höffe proposes an extended and original interpretation of Kant, philosophy of law, and social morality. Höffe articulates his reading of Kant in the context of an account of modernity as a "polyphonous project," in which the dominant themes of pluralism and empiricism are countered by the theme of categorically binding moral principles, such as human rights. Paying equal attention to the nuances of Kant's texts and the character of the philosophical issues in their own right, Höffe ends up with a Kantianism that requires, rather than precludes, a moral anthropology and that questions the fashionable juxtaposition of Kant and Aristotle as exemplars of incompatible approaches to ethical and political thought.

Law and Morals Simon F. Lee 1986 This book examines the relationship between law and morals, especially relating them to issues and events of current interest, and argues for broader participation in the debate, since it raises questions which touch the lives of us all.

Ancient Law and Modern Understanding Alan Watson 1998 In Ancient Law and Modern Understanding Alan Watson proposes that ancient law is relevant and important for understanding history, theology, sociology, and literature. "Law, though technical," he writes, "is not remote from scholarship on other matters, and law is a central element in society." From Homeric Greece to present-day Armenia, Watson examines law's influence. Without a sensitivity to technical legal language, scholars of literature or history miss much: the use of puns in Plautus, Sulla's claim that Julius Caesar was descended from a slave, the relationship between the Synoptic Gospels. Legal history is an essential tool for understanding society, Watson argues, but it must be applied with knowledge of how law moves from one society to the next, legal reliance on authority, juristic concern with apparent trivia, and the impact on legal growth.
