The Book of Clever Beasts Myrtle Reed 2021-01-01 Excerpt from The Book of Clever Beasts: Studies in Unnatural History What you need, said this gifted scientist to me, is absolute rest and quiet. If you do not pack up and take to the woods within three days from the receipt of this notice, I will not answer for the consequences. Your brain is slowly but surely giving way. Your batteries are becoming exhausted and must be renewed if measurable currents are to be expected. I recommend new cells, rather than recharging from a dynamo. Get busy now.

The Illustrated Catalogue of the Industrial Department Weltausstellung (1862, London) 1862 The impressive official catalogue for the International Exhibition held in London in 1862. Although its title describes it as the "catalogue of the industrial department", the scope of the catalogue includes raw materials, machinery and manufactured goods of all kinds, including photographic apparatus, clothing, books, fabrics, furniture, goldsmiths' work, jewellery, glass and ceramics. Interesting features are a separately paginated catalogue of the Indian exhibits, prepared by J. Forbes Watson as part of vol. III, and, in vol. IV, special catalogues of the Austrian exhibits (separately printed by the Imperial Printing Office in Vienna, using "maize paper") and of the exhibits of the German Zollverein (separately printed in Berlin, with an illustrated advertisement supplement featuring goods from German manufacturers). --abebooks website.

Scotch Irish Foodways in America M. M. Drymon 2009-11 The year 2018 will mark the three hundredth anniversary of the first winter spent at Casco Bay in Maine by some of the earliest members of the final wave of the English Diaspora to America: that of the Ulster and Border Scots/English people from Northern Britain. The 1718 project is a program that is devoted to scholarly research to promote the history of the Scotch Irish and their contributions to American society. Scotch Irish Foodways celebrates the traditional Scotch Irish diet and explains how it was transformed while changing America itself. The recipes in this book have been derived from historic sources, cookbooks, and carefully treasured recipes obtained from food historians, family members, and friends.

Signposts Sally E. Hadden 2013-04-01 In Signposts, Sally E. Hadden and Patricia Hagler Minter have assembled seventeen essays, by both established and rising scholars, that showcase new directions in southern legal history across a wide range of topics, time periods, and locales. The essays will inspire today's scholars to dig even more deeply into the southern legal heritage, in much the same way that David Bodenhamer and James Ely's seminal 1984 work, *Ambivalent Legacy*, inspired an earlier generation to take up the study of southern legal history. Contributors to Signposts explore a wide range of subjects related to southern constitutional and legal thought, including real and personal property, civil rights, higher education, gender, secession, reapportionment, prohibition, lynching, legal institutions such as the grand jury, and conflicts between bench and bar. A number of the essayists are concerned with transatlantic connections to southern law and with marginalized groups such as women and native peoples. Taken together, the essays in Signposts show us that understanding how law changes over time is essential to understanding the history of the South. Contributors: Alfred L. Brophy, Lisa Lindquist Dorr, Laura F. Edwards, James W. Ely Jr., Tim Alan Garrison, Sally E. Hadden, Roman J. Hoyos, Thomas N. Ingersoll, Jessica K.
