Fascism's European Empire Davide Rodogno 2006-08-03 This 2006 book is a controversial reappraisal of the Italian occupation of the Mediterranean during the Second World War, which Davide Rodogno examines within the framework of fascist imperial ambitions. He focuses on the European territories annexed and occupied by Italy between 1940 and 1943: metropolitan France, Corsica, Slovenia, Croatia, Dalmatia, Montenegro, Albania, Kosovo, Western Macedonia, and mainland and insular Greece. He explores Italy's plans for Mediterranean expansion, its relationship with Germany, economic exploitation, the forced 'Italianisation' of the annexed territories, collaboration, repression, and Italian policies towards refugees and Jews. He also compares Fascist Italy and Nazi Germany through their dreams of imperial conquest, the role of racism and anti-Semitism, and the 'fascistization' of the Italian Army. Based on previously unpublished sources, this is a groundbreaking contribution to genocide, resistance, war crimes and occupation studies as well as to the history of the Second World War more generally.

Economic Theory and its History Giuseppe Freni 2016-01-29 This collection brings together leading economists from around the world to explore key issues in economic analysis and the history of economic thought. This book deals with important themes in economics in terms of an approach that has its roots in the works of the classical economists from Adam Smith to David Ricardo. The chapters have been inspired by the work of Neri Salvadori, who has made key contributions in various areas including the theory of production, the theory of value and distribution, the theory of economic growth, as well as the theory of renewable and deplorable natural resources. The main themes in this book include production, value and distribution; endogenous economic growth; renewable and exhaustible natural resources; capital and profits; oligopolistic competition; effective demand and capacity utilization; financial regulation; and themes in the history of economic analysis. Several of the contributions are closely related to the works of Neri Salvadori. This is demonstrated with respect to important contemporary topics including the sources of economic growth, the role of exhaustible resources in economic development, the reduction and disposal of waste, the redistribution of income and wealth, and the regulation of an inherently unstable financial sector. All contributions are brand new, original and concise, written by leading exponents in their field of expertise. Together this volume represents an invaluable contribution to economic analysis and the history of economic thought. This book is suitable for those who study economic theory and its history, political economy as well as philosophy.

Il capitalismo finanziario italiano. Un'araba fenice? Racconti di politica economica Filippo Cavazzuti 2020-03-19 Lo storico Braudel annota che la parola capitalismo appare per la prima volta in lingua francese ai tempi degli enciclopedisti. Da allora questa parola ha generato una vera e propria babele narrativa. Abbiamo anche una Cambridge history of capitalism. Questi scritti di Filippo Cavazzuti intendono dare all'espressione "capitalismo finanziario" i connotati propri del capitalismo finanziario italiano sia a livello

teorico che politico. Si inizia con gli atti della commissione economica per l'Assemblea Costituente ricca di proposte di politica economica per lo sviluppo dell'Italia nel dopoguerra. Si prosegue analizzando i decenni che hanno portato l'Italia nell'euro. Sono anni che vedono la marginalità dei mercati dei capitali di rischio e la preponderanza del capitale di debito, insieme alla progressiva scomparsa della grande impresa pubblica o privata che sia. Una scomparsa che è la causa, non ultima, della stagnazione economica secolare dell'economia italiana. Completano il volume alcuni profili di eminenti economisti (Andreatta, Carli, Spaventa, Sylos-Labini, Albertini) che l'autore ha avuto la fortuna e il privilegio di conoscere e dai quali ha molto imparato. Non solo lui!
