Adam Smith's Pluralism Jack Russell Weinstein 2013-09-24 In this thought-provoking study, Jack Russell Weinstein suggests the foundations of liberalism can be found in the writings of Adam Smith (1723-1790), a pioneer of modern economic theory and a major figure in the Scottish Enlightenment. While offering an interpretive methodology for

approaching Smith's two major works, "The Theory of Moral Sentiments" and "The Wealth of Nations," Weinstein argues against the libertarian interpretation of Smith, emphasizing his philosophies of education and rationality. Weinstein also demonstrates that Smith should be recognized for a prescient theory of pluralism that prefigures current theories of cultural diversity.

The Qur'an in South Asia Kamran Bashir 2021-09-20 The book investigates modern Qur'an commentaries in South Asia and engages with how Muslim scholars have imagined and assessed their past intellectual heritage. The research is focused on British India from the time of the Mutiny of 1857 to the moment of the Partition of united India in 1947. Offering critical scrutiny of Muslim exegesis of the Qur'an in North India, the study especially focuses on the Qur'anic thought of Sayyid Ahmed Khan (d. 1989), Ashraf Ali Thanawi (d. 1943), and Hamid al-Din Farahi (d. 1930). The volume challenges widespread assumptions of an all-pervasive reform and revivalism underlying the academic study of Islam. Instead of looking for Muslim revivalism and reform as epistemological foundations, it stresses the study of modern Qur'an commentaries, in particular local and cosmopolitan contexts. Departing from the oft-repeated explanations of Muslim scholarship and modern Islam through the lens of traditionalism and modernism, it discovers how Muslim scholars viewed

themselves in relation to the Islamic tradition, and how they imagined and assessed their past intellectual heritage. Studying the history of the interpretation of the Qur'an in the multiple contexts of nineteenth and early twentieth-century British India, the book will be of interest to readers of Qur'anic studies, modern Islam and South Asian studies.

Islam and Colonialism Muhamad Ali 2015-12-08 This book offers a comparative and cross-cultural history of Islamic reform and European colonialism as both dependent and independent factors in shaping the multiple ways of becoming modern in Indonesia and Malaya during the first half of the twentieth century.

Gandhi B.R. Nanda 2001-12-14 The Hindu–Muslim conflict was a major problem during the nineteenth and the early twentieth centuries. This book shows how Mahatma Gandhi resolved the conflict and even united the Hindus and the Muslims. It presents a detailed introduction to the Khilafat (Pan-Islamist) movement, a venture that Gandhi supported wholeheartedly. The discussion looks at Gandhi's non-cooperation movement, which, he believed, could help bridge the gap between the two communities. It discusses concepts such as mass civil disobedience and the Caliphate, and studies notable events such as the brief alliance between the British Raj and the Indian Muslims and the Mappila Rebellion. It also takes note of the responses of the British officials towards Gandhi's efforts and the confrontation that nearly occurred between the Viceroy and Gandhi. The book introduces readers to some of the people who participated and contributed to these events, including the Ali Brothers, Syed Ahmad Khan, and Ameer Ali.

Bidong Island Ong Meng Chuan 2022 Bidong Island is a small island located in the South China Sea, and is about 14 km from mainland Peninsular Malaysia. The island and the Bidong archipelago boast of its richness in diversity of both terrestrial and marine organisms and its undeniably pristine and thriving ecosystem. In 1975-1990, Bidong Island was formerly a UNHCR refugee camp for a quarter of a million Vietnamese "Boat people" escaping the Vietnam War, and still holds great significance to many of its descendants. Due to its historical significance, the Terengganu State government plans to develop Bidong Island as a heritage tourism site and a new scuba diving destination. This book highlights the uniqueness of Bidong Island and its archipelago, paying particular attention to the biological aspect (which includes marine and terrestrial organisms) and the pollution status surrounding the island. These mainly focus on organisms of the open water and benthic ecosystems such as plankton, fishes, corals reef communities, crustaceans and foraminifera. In addition, we discuss terrene related topics, which includes tree diversity, lichens and also herpetofauna surrounding the Bidong Island. Indisputably an important topic, we also address the pollution status surrounding Bidong Island, with emphasis on heavy metals and its impact. Readers interested in the areas of environmental sciences should find this book appealing. This book can also be used by students and researchers when discussing about tropical environments

on island ecosystems. We do hope that stakeholders that would partake in future interest of Bidong Island (particularly in tourism) are equally aware of the current health status of the island and would engage in conserving and sustaining the diversity and heritage of the archipelago for the benefit of the community. .

Muslim, Dalit and Subaltern Narratives (Volume 5) addresses the role of marginal and Muslim groups respectively, exploring minority perceptions of the Uprising, including Dalit narratives and the use of 1857 in re-imagining the past. The second half of the volume looks into the

response and involvement of different Muslim social groups, from civil servants, philosophers and logicians to the Mujahidin, as well as exploring the experience of indigenous participants in their own words.

Modernity and Culture Leila Fawaz 2002-05-15 Between the 1890s and 1920s, cities in the vast region stretching from the Mediterranean Sea to the Indian Ocean were experiencing political, social, economic, and cultural changes that had been set in motion at least since the early nineteenth century. As the age of pre-colonial empires gave way to colonial and national states, there was a sense that a particular liberalism of culture and economy had been irretrievably lost to a more intolerant age. Avoiding such dichotomies as East/West and modernity/tradition, this book provides a comparative analysis of contested versions of the concept of modernity. The book examines not only the "high" culture of scholars and the literati, but also popular music, the visual arts, and journalism. The contributors incorporate discussion of the way in which the business in both commodities and ideas was conducted in the increasingly cosmopolitan cities of the time.

EARLY INDIA upto AD 1350 Arun Kumar & Priyanka 2020-12-30 Perhaps the fiercest debate on the Indus civilization is

over the reasons for the end of the India's earliest cities. Did they dramatically collapsed or was there steady urban

decline? Was the decline a result of in roads by the Aryans or did rivers, earthquakes, or climatic shifts contribute to the

disintegration? Was the end marked by a cultural fracture or regional migrations from the core areas to the areas which

offered better subsistence possibilities? The recent studies do not accept the Aryan invasion theory or the inundation

theory or the tectonic upliftment concept as it is not warranted by any scientific or rationale evidences. It seems likely that

the decline of the Harappan civilization was mainly due to ecological imbalances. The delicate ecological balances of

semi-arid areas (Harappa and Mohenjodaro) was being disturbed because the human and cattle populations in these

areas was fast depleting the scanty forest, food and fuel resources. Thus, the growing populations of men and animals

confronted by scanty resources wore out the landscape. This depletion of the subsistence base caused strain on the

entire economy. Moreover, the drift of the monsoon to the west necessitated the Harappan people to migrate to the areas

of Gujarat, Haryana which provided better survival possibilities.

A Political History of Literature Pankaj Jha 2018-11-20 Multilinguality gained a new impetus in North India with the influx of West Asian Muslim communities around the thirteenth century. Over a period of time, it entered everyday life as well as creative and scholarly pursuits. The fifteenth century, in particular, saw unprecedented vitality for literary practice, and the poet-scholar Vidyapati from Mithila was one of the many luminaries of the time. This volume encompasses an intimate linguistic, literary, and historical study of three of Vidyapati's major works: a Sanskrit treatise on writing (Likhana); a celebratory biography in Apabhraṃśa (Kṛttilat); and a collection of mythohistorical tales in Sanskrit (Puruṣaparākṛt). Through this examination, the author reveals a world that is marked by a range of ideas, expertise, literary tropes, ethical regimes, and historical consciousness, drawn eclectically from sources that belong to 'diverse' politico-cultural traditions. Using Vidyapati's narratives, A Political History of Literature illustrates that many ideals extolled in fifteenth century literary cultures were associated with an imperial state—a state that was a century away from coming into being—and testifies that ideas incubate and get actualized in realpolitik only in the long duration.
