Parting the Waters Taylor Branch 2007-04-16 In Parting the Waters, the first volume of his essential America in the King Years series, Pulitzer Prize winner Taylor Branch gives a “compelling...masterfully told” (The Wall Street Journal) account of Martin Luther King’s early years and rise to greatness. Hailed as the most masterful story ever told of the American Civil Rights Movement, Parting the Waters is destined to endure for generations. Moving from the fiery political baptism of Martin Luther King, Jr., to the corridors of Camelot where the Kennedy brothers weighed demands for justice against the deceptions of J. Edgar Hoover, here is a vivid tapestry of America, torn and finally transformed by a revolutionary struggle unequalled since the Civil War. Taylor Branch provides an unsurpassed portrait of King’s rise to greatness and illuminates the stunning courage and private conflict, the deals, maneuvers, betrayals, and rivalries that determined history behind closed doors, at boycotts and sit-ins, on bloody freedom rides, and through siege and murder. Epic in scope and impact, Branch’s chronicle definitively captures one of the nation’s most crucial passages.

Startide Rising David Brin 2021-05-25 A starship crew of humans and dolphins skirts the brink of interstellar war in this epic adventure by the New York Times–bestselling author of The Postman. We are not alone. Humanity’s explorations have revealed galaxies inhabited by millions of intelligent species interacting under ancient traditions. Foremost among said traditions is uplift, which requires all spacefaring races to welcome newcomers into Galactic culture by breeding and genetically guiding each client species to full sapience—but at a price. Patron races demand centuries of indentured servitude from each uplifted client. But is upstart humanity a patron or a client? The Earthship Streaker—crewed by humans and uplifted dolphins and chimpanzees—discovers a derelict armada, perhaps left by the very first patrons, the fabled Progenitors. Suddenly the Five Galaxies teeter on the brink of all-out war as fanatics hunt Streaker for the secret. With a damaged ship and hostile aliens in pursuit, the crew must band together if they hope to survive . . . This ebook features a new introduction by the author. Winner of the Hugo and Nebula Awards “An extraordinary achievement.” —Poul Anderson, award-winning author of Tau Zero “What a wonderful ride . . . Startide Rising is one of the books that I remember most fondly, out of all I have read, and rereading it thirty years later proved just as enjoyable as the first time. I remain amazed at how many different characters and subplots Brin juggles without a misstep, and the way he keeps the tension and suspense high throughout.” —Tor.com “This is one of the outstanding SF novels of recent years.” —Publishers Weekly “One of maybe twenty science fiction novels that deserve the label classic.” —Time

Tidelands Philippa Gregory 2019-08-20 This New York Times bestseller from “one of the great storytellers of our time” (San Francisco Book Review) turns from the glamour of the royal courts to tell the story of an ordinary woman, Alinor, living in a dangerous time for a woman to be different. A country at war A king beheaded A woman with a dangerous secret On Midsummer’s Eve, Alinor waits in the church graveyard, hoping to encounter the ghost of her missing husband and thus confirm his death. Until she can, she is neither maiden nor wife nor widow, living in a perilous limbo. Instead she meets James, a young man on the run. She shows him the secret ways across the treacherous marshy landscape of the Tidelands, not knowing she is leading a spy and an enemy into her life. England is in the grip of a bloody civil war that reaches into the most remote parts of the kingdom. Alinor’s suspicious neighbors are watching each other for any sign that someone might be disloyal to the new parliament, and Alinor’s ambition and determination mark her as a woman who doesn’t follow the rules. They have always whispered about the sinister power of Alinor’s beauty, but the secrets they don’t know about her and James are far more damning. This is the time of witch-mania, and if the villagers discover the truth, they could take matters into their own hands. “This is Gregory par excellence” (Kirkus Reviews). “Fans of Gregory’s works and of historicals in general will delight in this page-turning tale” (Library Journal, starred review) that is “superb... A searing portrait of a woman that resonates across the ages” (People).

Douglas Fir Stephen F. Arno 2020-10-01 Westerners familiar with their forests may think they know the Douglas fir—but how well do they? Douglas firs are found in the continental northwest from British Columbia to as far south as Oaxaca, Mexico. They flourish in the Cascades, Rocky Mountains, Sierra, and other mountain ranges, as well as in desert valleys. Incredibly hardy, this tree adopts various strategies to occupy more kinds of habitats than any other native tree, even becoming an uncontrollable invader in some regions, crowding out ponderosa pines, western larch, aspen groves, and mountain grasslands. Yet the utility of this noble species is immense. Douglas firs yield more high-quality construction lumber than any other tree in the world. Most intriguing of all, perhaps, is that the story of the Douglas fir has gone untold. Douglas Fir fills this literary gap and presents an engaging profile of the Douglas fir and its relationship to people, commerce, culture, and wilderness.

Oorlog voeren Karl Marlantes 2012-07-05 In Oorlog voeren geeft Karl Marlantes, auteur van de bestseller Matterhorn, zijn kijk op oorlog en analyseert hij hoe we onze soldaten beter voorbereid op hun taak de oorlog in kunnen sturen, zowel lichamelijk als psychisch. Want de offers die soldaten brengen zijn bijna onmenselijk. Politici en burgers hebben geen flauw idee wat de jonge mannen en vrouwen moeten doorstaan die zij de strijd in sturen. Bovendien is het vaak nauwelijks mogelijk om na terugkomst weer normaal deel te nemen aan de maatschappij. Aan de hand van zijn eigen ervaring en beproevingen in de Vietnamoorlog schetst Marlantes een rauw beeld van wat het betekent om als soldaat oorlog te moeten voeren.

The Ice Beneath You Christian Bauman 2002-10-02 Just as The Things They Carried and Catch-22 spoke to their generations with truth and dark humor, this brilliant first novel defines the experience of war for its era. Benjamin Jones, twenty-three, discharged after an army tour in Somalia, heads cross-country on a Greyhound, seeking refuge on the West Coast. He has left behind his best friend, Trevor, and Liz Ross, a female soldier with whom Jones has fallen in love. But Jones has also left behind a tragedy -- a horrible, split-second action made in Somalia -- that Trevor, Jones, and the army have implicitly agreed to forget. Alone on the streets of San Francisco, and then north on the Washington coast, Jones finds that an uneducated ex-soldier is qualified only as a peep show fantasy object or as a hired hand to a bottom-feeding smuggler and pornographer. Recurring visions of his life as a soldier gradually reveal the full truth -- and agony -- of his experience, and a reunion with Liz and a violent confrontation with Trevor bring the young soldier's journey to a wrenching conclusion -- but one not without hope. At equal turns tense, brutal, and poetic, The Ice Beneath You is a soldier's story for a time when there weren't supposed to be any more soldiers' stories.

The Spectral Tide Eric Mills 2013-11-15 Now, for the first time, comes a long-overdue book that presents all of the U.S. Navy's rich cargo of paranormal phenomena. There is the great Stephen Decatur, whose mournful apparition still stalks the halls of his famous home, said to be one of the most haunted spots in Washington, D.C. USS The Sullivans, now a floating museum, is the source of much disturbing spectral activity--poltergeists opening locks, hurling objects, and turning on radar that's no longer under electrical power. Then there are the repeated sightings of the handsome USS Lexington ghost, 'polite. . .kind. . .smartly dressed in a summer white Navy uniform.' From translucent sails to phantom crews, from a flaming ghost ship to the infamous psychic anomaly at the U.S. Naval Academy to battleships where the dead still linger, this book offers no less than a haunted history of the U.S. Navy.

Lost Maine Coastal Schooners Ingrid Grenon 2010-04-23 Dramatic true stories of New England maritime history, with photos. Large, wooden-hulled schooners graced the seas of coastal Maine for more than a century as vessels of trade and commerce. With the advent of steam-powered craft, however, these elegant four-, five-, or six-masted wooden ships became obsolete and vanished from the harbors and horizons. The Edward Lawrence, the last of the six-masters, became her own funeral pyre in Portland Harbor, burning to ash before everyone's eyes. The Carroll A. Deering washed ashore with no trace of her crew, empty as a ghost ship except for three cats and a pot of pea soup still cooking on the stove. In this testament to the beauty of the Maine coastal region, maritime history enthusiast Ingrid Grenon tells the story of these magnificent relics of the bygone Age of Sail and celebrates the people who devoted their lives to the sea.

The Trouble With Aliens Christopher Anvil 2006-08-01 Humans on the space frontiers may have enough problems with befuddled bureaucrats, rules that don't fit the realities of very dangerous situations, and general rear-echelon incompetence without bringing in unfriendly aliens, but it's that kind of universe. On the other hand, as master satirist Christopher Anvil makes clear, the aliens are anything but omnipotent and have plenty of problems of their own. Here for the first time the stories and short novels of the war with the Outs are collected into a novel-length chronicle. The Outs had mental powers they could use to make humans see illusions and convince them to change sides. Obviously, they were unbeatable-until some troublesome humans found their Achilles' heel. Another set of aliens arrive to conquer the Earth with the promise of eternal youth and healthfulness, and might have won, if some humans weren't too plain ornery not to be suspicious. Who's the best human envoy to deal with aliens who can read minds and learn anything their opponents know-the man who knows little or nothing, of course, including why he was sent there. When an investigator was hired to find out the reason for the strange events in a palatial mansion, he quickly solves the case-until he wakes up and finds that his solution was only a dream and the case is still unsolved. And the same thing happens again every night. These and other stories of human/alien conflict fill this large volume by the master of wryly sardonic science fiction adventure. At the publisher's request, this title is sold without DRM (Digital Rights Management).

Ghost Fleet Awakened Joseph W. Zarzynski 2019-11-01 Chronicles the history and archaeological study of Lake George, New York's sunken bateaux of 1758. In Ghost Fleet Awakened, Joseph W. Zarzynski reveals the untold story of a little-recognized sunken fleet of British warships, bateaux, from the French and Indian War (1755–1763). The story begins more than 250 years ago, when bateaux first plied the waters of Lake George, New York. Zarzynski enlightens readers with a history of these utilitarian vessels, considered the most important vessels that transported armies during eighteenth-century wars in North America, and includes their origins and uses. By infusing the book with underwater archaeology doctrine, Zarzynski shows the nautical significance of these colonial craft. In the autumn of 1758, the British command at Lake George made a daring decision to deliberately sink two floating batteries (radeaux), some row galleys and whaleboats, a sloop, and 260 bateaux, thereby placing the warships into wet storage and protecting them from marauding French during the coming winter. In 1759, many submerged boats were raised but some were not. Then, in 1960, two divers rediscovered several sunken bateaux, dubbed the “Ghost Fleet.” These shipwrecks were the focus of underwater archaeological investigations that provided archaeologists with opportunities to gain unprecedented insight into eighteenth-century lifeways. Zarzynski explores and explains shipwreck preservation techniques, the creation of shipwreck parks for scuba enthusiasts, and the many multifaceted programs developed by the nonprofit organization Bateaux Below to help protect these finite cultural treasures. “Zarzynski offers fascinating new research on bateau shipwrecks through the use of manuscripts, period newspaper accounts, and interviews. It is an outstanding piece of research, explaining the chronological history of cultural resource preservation. No other book provides this level of documentation on the role of bateaux during the wars of the eighteenth century.” — Russell P. Bellico, author of Empires in the Mountains: French and Indian War Campaigns in Forts in the Lake Champlain, Lake George, and Hudson River Corridor “This is a major contribution to the field of American history, New York State history, underwater archaeology, and cultural resource management. There is no equivalent book that documents this story.” — Timothy J. Runyan, editor of Ships, Seafaring and Society: Essays in Maritime History

The City of Rope Alin Cristian 2020-12-31 If someone had the tactile gift of finding painted prehistoric caves, he'd be torn apart between, on the one hand, talking others into following him and, on the other, crawling, wriggling, clawing, and sweating his way to the next trove. Alin Cristian sees in this the writer's condition: one works one's way to a vision, encased as the latter always is in obstructing matter. As for the value of this vision, only one thing is certain: those who have time to talk about it weren't graced with either the speleologist's feverish hands, or with his sense of urgency. Other caves clawed out of darkness by the same author include The Transcript, Silvestralia and The Lowest Country.

Task Force 58 Rod Macdonald 2021-11-30 The new breed of American fast aircraft carriers could make thirty-three knots, and each carried almost 100 strike aircraft. Brought together as Task Force 58, also known as the Fast Carrier Task Force, this awesome armada at times comprised more than 100 ships carrying more than 100,000 men afloat. By 1945, more than 1,000-combat aircraft, fighters, dive- and torpedo-bombers could be launched in under an hour. The fast carriers were a revolution in naval warfare – it was a time when naval power moved away from the big guns of the battleship to air power projected at sea. Battleships were eventually subordinated to supporting and protecting the fast carriers, of which, at its peak, Task Force 58 had a total of seventeen. This book covers the birth of naval aviation, the appearance

of the first modern carriers in the 1920s, through to the famous surprise six-carrier Kid? Butai Japanese raid against Pearl Harbor on 8 December 1941 and then the early US successes of 1942 at the Battles of the Coral Sea and Midway. The fast carriers allowed America, in late 1942 and early 1943, to finally move from bitter defence against the Japanese expansionist onslaught, to mounting her own offensive to retake the Pacific. Task Force 58 swept west and north from the Solomon Islands to the Gilbert and Marshall Islands, neutralising Truk in Micronesia, and Palau in the Caroline islands, before the vital Mariana Islands operations, the Battle of Saipan, the first battle of the Philippine Sea and the Great Marianas Turkey Shoot. The strikes by Task Force 58 took Allied forces across the Pacific, to the controversial Battle of Leyte Gulf and to Iwo Jima and Okinawa. Task Force 58 had opened the door to the Japanese home islands themselves – allowing US bombers to finally get close enough to launch the devastating nuclear bombing raids on Hiroshima and Nagasaki. Task Force 58 participated in virtually all the US Navy's major battles in the Pacific theatre during the last two years of the war. Having spent many years investigating naval shipwrecks across the Pacific, many the result of the devastating effectiveness of Task Force 58, diver and shipwreck author Rod Macdonald has created the most detailed account to date of the fast carrier strike force, the force that brought Japan to its knees and brought the Second World War to its crashing conclusion.

New York 2140 Kim Stanley Robinson 2017-03-14 New York Times bestselling author Kim Stanley Robinson returns with a bold and brilliant vision of New York City in the next century. As the sea levels rose, every street became a canal. Every skyscraper an island. For the residents of one apartment building in Madison Square, however, New York in the year 2140 is far from a drowned city. There is the market trader, who finds opportunities where others find trouble. There is the detective, whose work will never disappear -- along with the lawyers, of course. There is the internet star, beloved by millions for her airship adventures, and the building's manager, quietly respected for his attention to detail.
